

Remarks

Claims 1-61 are pending in the application. By this amendment, claims 1-61 are canceled and replaced with claims 62-93. Claims 62-78 are based on, but not identical to, claims 12-21. Claims 79-93 are based on, but not identical to, claims 29-55.

It is believed that claims 62-78 relate to Group IV identified in the Office Action. It is further believed that claims 79-93 relate to Group IX identified in the Office Action. It is still further believed that the rewriting of the claims has removed all claims related to Groups I-III, V-VIII, and X-XI. Therefore, only claims to Groups IV and IX remain in the application, and Applicant elects without traverse Group IV (claims 62-78) for prosecution in the current application and will file a divisional application for Group IX (claims 79-93).

If there are any questions regarding this matter, please contact the undersigned.

Respectfully submitted,

ALEXANDER MANU

Dated: September 20, 2007
